

THE GLOBAL PANDEMIC OUTBREAK 2020

Multidisciplinary Speculation on Impacts & Responses

SUB THEMES

- COVID-19 impact at global & local scale
- Lockdown and environmental freshness at the global & local scale of investigation
- Mapping the trend and spatial pattern of the pandemic and prediction of future
- The emerging trend of geopolitics and visualizing the post-pandemic world's political & economic order
- Learning from the history of the pandemic outbreak
- Pandemic and literature
- Impact of COVID induced lockdown on the economy
- Poverty, hunger, famine and human migration
- The world under pandemic situation & the loss of childhood
- Challenge of ethics - human health as a commodity in the pandemic threatened world
- The pandemic outbreak, social distancing & global solidarity
- Impact of COVID outbreak on human culture

Dear Colleagues,

We are witnessing an unprecedented global pandemic outbreak of COVID-19, which has been devastating in its consequence, breaking all statistics of illness and fatality hitherto known to mankind. The practitioners of Medical Science are working at the frontline of the fight against this pandemic. However, beyond this scenario of an acute health hazard, the pandemic has carried with it the other threats for mankind associated with the human economy, society, culture, psychology, and politics. The long period of lockdown all over the globe has resulted in environmental reinvigoration and diminishing of the pollution level. On the other hand, the lockdown has affected the world economy to initiate another global economic recession. The fallout of the latter is of grim significance to the entire population of the world. Amidst these multifarious dimensions of the pandemic, this is high time for global solidarity to save humankind on this only planet in the universe where life exists. The practitioners of all academic disciplines need a common platform to exchange their ideas that may be effective in the sustainable management of the crisis and the way forward after it is mitigated. The proposed volume seeks contributions from all the disciplines for showing the solidarity of academic knowledge to fight against this global challenge.

Please take care and stay safe.

ENSEMBLE is Looking forward to your scholarly contribution which will be impactful.

Thanking you,

On behalf of the Board of Editors,
Dr. Mukunda Mishra
Managing & Publishing Editor, ENSEMBLE
